

Description

The Fund aims to provide its investors with profitability through the opportunities offered by the Brazilian stock market. The fund follows a long only strategy thus the main risk fator is the variation of the prices of shares admitted to trading on the spot Market of the Brazilian stock Exchange (B3). The Fund is exclusively intended to receive investments from Brazilian individuals and Brazilian corporate investors in general. The fund benchmark is Ibovespa, the main index of the Brazilian stock exchange, however, the fund portfolio does not have any compromise to follow the index contents.
